NO MODIFICATION OF ANTI-ALIEN LAW

Mr. Bryan's Visit to California Said to Have Been Barren of Results.

WEBB BILL WILL PASS.

Secretary Says His Task is Practically Ended—Matter Now up to President Wilson.

Sacramento, Cal., April 30.—Practically acknowledging the failure of his efforts to modify the anti-alien land owning bill now pending in the legislature, Secretary of State Bryan today is en route to San Francisco for a brief visit.

That the Secretary of State has been defeated in his effort was evident immediately after last night's session of the two houses, when Bryan, in a conversation with a group of assemblymen said:

"The President has done his duty as he saw it and my task is practically ended."

The statement came after a new bill, drawn by Attorney General Webb, at the request of Governor Johnson, had been submitted and after the legislators had practically declared they would debate this measure Thursday and pass it.

It reiterates California's right to exclude any aliens and has exactly the same intent as the former bill, but is most carefully phrased.

The former bill provides that aliens eligible to citizenship cannot acquire land; the new bill merely substitutes the words "aliens eligible to citizenship can acquire land." There is nothing but an inverse statement of the same determination.

Final action on the bill was postponed until Thursday because Bryan is in San Francisco today, but progressive leaders make no secret of their determination to pass it. Not only that, but the Democratic members, failing to amend the bill will fall in line behind it, despite Bryan's urging.

With the lines drawn taught on the Japanese alien land law issues between the Federal government and California, President Wilson has prepared to accept the situation as it is, to mollify the ruffled feelings of Japan as best he could today.

ELKS' SOCIAL SESSION.

There will be several novelties at the social session of Alexandria Lodge of Elks tonight in their home at the corner of Prince and Royal streets. An attractive programme, including a number of athletic bouts has ben arranged. The Elks and their friends expect to enjoy a very pleasant evening.

Attacked by an Elephant.

San Francisco, April 29.—An elephant reached with his trunk beneath a circus tent in Oakland yesterday, picked up G. J. Gardinier, a circus employe, dragged him into the tent and hurled him through the canvas walls. Gardiner's wrist was broken, several ribs fractured, and he is so seriously injured that he may die. Gardiner is from Jacksonville, Fla.

ONIONS A SERMON FLAVORER.

Dietist Tests 60 Preachers on Result of Light Feeding.

Pitsburgh, April 30.—Urged to eat onions, apples, a little meat and plenty of peas, beans and eggs, 60 local ministers yesterday took off their coats and tried to touch fingers to the floor without bending the knees. Few succeeded, but progress was noted by a lecturer of Berkeley, Cal., who came here to tell Pittsburgh preachers "how to get well and stay well."

"The food for a laboring man must be different from the food for a professional man," it was stated. "Every minister ought to eat at least two apples a day and plenty of cabbage. You must eat onions too."

NEWS OF THE DAY.

Anthony Marasco, 25 years old, of Chicago, was struck on the head with a hatchet and killed yesterday after he attacked Anna Forte, 16 years old, because she refused to marry him. Pasquale Forte, 19 years old, a brother of the girl, is said to have struck the blow. He has not been captured. Mrs. Pasqualine Forte came to the assistance of the daughter, armed with a revolver. She fired at Marasco and the bullet, speeding through a window, struck Frank Alfona, 22 years old, who was passing the house. The wound is over the heart and the physicians say Alfona probably will die. Mrs. Forte, mother of the girl; Pasquale Forte, a member of the firm of Forte Bros., bankers, and a cousin of the girl, and Anna Forte were taken into custody.

Edward Melvin, a young farmer, was struck by lightning and instantly killed during an electrical storm of unusual severity which passed over Caroline county, Md., Monday night. Melvin was playing with his 11-months-old baby, having it in his arms when he was struck. He died instantly, but the infant escaped injury. Mrs. Melvin and her little daughter were in the living room, but they also escaped harm. A dog lying on the porch was killed. The kitchen and porch were wrecked and the home set on fire, thus adding trouble to the horror-stricken woman who was compelled to fight the flames single handed. Realizing the peril of her two helpless children, she fought bravely, though several times the flames threatened destruction to the property. She finally managed to get it under control.

The charge of nitroglycerine which wrecked the home of James T. Bacon, former member of the Colorado Legislature at Cripple Creek, Monday killing his wife and 6-year-old daughter, and probably fatally injuring Bacon himself, was placed in the cook stove by enemies of the family, according to the belief of the authorities. Bacon, a lessee of several mines, is reported to have recently referred to "some fellows laying for him,'" and it is said Mrs. Bacon on last Saturday endeavored to sell their home, explaining that she feared her husband's enemies. After recovering consciousness last night, Bacon said that the explosion occurred a moment after he had lighted the fire in the stove.

Through a statement made yesterday by a prisoner on Blackwells Island, New York, Richard F. Dunbar, the police are hopeful of clearing up an eight-year-old murder mystery, the killing of Mattie Hackett, a young girl of Kennebec county, Me., in August, 1905. Dunbar, the police say, implicated two other men. The police quote Dunbar as saying he became friendly with a young man at Readfield, Me., who wanted to "get rid of" the Hackett girl. With this friend and a third man, Dunbar said he went to the Hackett home and while one of the party, on some pretext, got the girl's father out of the house, the others lured her to a lonely spot and strangled her with a rope.

A dozen laborers employed by the city of New Rochelle, N. Y., were driven from their work of cleaning debris from a brook near North Avenue, yesterday afternoon by a number of giant rats that attacked them. Mayor Frederick H .Waldorf, who was watching the work, ordered the men back. They attacked the rats with picks and shovels, and killed half of them after a desperate battle, in which three of the men were bitten.

Mrs. Rachel Sparks, 50 years old, of Corbin, Ky., Monday afternoon caused the arrest of Frank G. Girard, 56 years of age, a performer with a burlesque company, charging that he had stolen $50 from her, and when Girard declared his inability to refund the money, but offered himself to her instead, she accepted the proposition and the two were married a few hours later.

"A needle in the heart" is physician's report of the cause of death of a 2-year-old daughter of Samuel Zuckerbrot, an East Side New York tailor. Later she became sickly and it was thought recently that she had pneumonia until the X-ray was applied and the doctors found that t he forgotten needle had traveled until it embedded itself in the wall of the child's heart.

MINISTER PAINTS FEARFUL PICTURE

Says a Revolution Will Eventually be Caused by High Prices.

WILL FACE A FAMINE.

Alleges That Similar Causes Precipitated French Revolution—Lack of Practical Housekeeping.

Philadelphia, Pa., April 30.—Rev. Dr. Madison C. Peters, of New York, said at a banquet given in the Bellevue-Stratford by the general society of the Daughters of the Revolution that a famine will be caused in this country and a revolution will break out if 75 per cent of the people in the United States continue to live in cities without reducing the cost of living. He declared that the moneyed class is unlawfully depriving the poor people of their bread and butter, and their right to make an honest living.

"The cost of living is high because we have rapidly become a nation of cities,' observed Dr. Peters in speaking on the subject, "The High Cost of Living and How to Reduce It."

"Fifty per cent of our population today lives in cities and towns. Twenty-five per cent of our population lives in cities of 100,000 or more. In 1950 there will be 300,000,000 people in the United States, and if the present drift continues 75 per cent, of them will live in our cities; then we will have a famine, and then a revolution. The high cost of living brought on the French revolution.

"Our living is high because we are poor farmers. To reduce the high cost of living our farmers must be taught how to increase their yield yearly. To this end I would give national aid to agriculture, and teach agriculture in the public schools.

"The living is high because our immigration of more than 1,000,000 a year, crowds 80 per cent of it into our cities. These newcomers should be distributed on the soil and become producers rather than consumers.

"The high cost of living is due to a lack of scientific housekeeping. Eighty-seven per cent. of the girls in the high schools of the republic are studying the dead languages, and only 3 per cent. domestic science.

"Our delivery system adds 12 to 15 per cent. to the high cost of living. The credit system helps to make living high, so does the package craze and the trading stamps also add to the cost.

"I would reduce the high cost of living by establishing a public market in every city in America as they have done in Europe. The elimination of the middleman and his profits and expenses by buying direct from the factory is the solution of the problem and the parcel post is helping in that direction."

MOVE ON ALLIES.

Austria Sends Troops Toward Montenegro And Servia.

Geneva, April 30.—Austria in the last forty-eight hours has depleted the forts on the Swiss and Italian frontiers of several thousands of men of the crack Alpine regiments, which have been dispatched toward Montenegro and Servia.

Other troops from Vienna are replacing these drafts for special service.

Berlin, April 30.—The announcement that Austria-Hungary was dissatisfied with the results of the ambasadorial conference in London in regard to the occupation of Scutari and has determined to take matters into its own hands has aroused much excitement here.

The statement of the Austrian attitude as given out by a correspondent in precise form is as follows:

"Austria-Hungary, finding that the ambassadorial conference in London produced no results, has decided to take matters into her own hands and to carry out the decision of the European powers regarding the evacuation of Scutari."

PARTIES AND PRIMARIES.

Judge Keith Upholds Decision of Lower Court in Portsmouth Injunction.

Richmond, Va., April 30.—Holding in effect that political parties have the right to arrange and conduct primaries to suit the party managers, regardless of laws, Judge Keith, of the State Supreme Court yesterday sustained the ruling of Judge Kenneth Bain, of the Hustings Court of Portsmouth, and refused to grant an injunction restraining the Democratic executive committee of that city from holding the primary advertised for May 27th.

The injunction proceedings were instituted in the Hustings court of Portsmouth last week by A. F. Flynn and Newton McAlpine, candidate for municipal offices, against S. T. Montague, chairman, and the members of the city committee, the petitioners contending that the Byrd act regulating primaries supercede all local laws governing such elections, and furthermore, that even if this was not true, that the committee was violating the provisions of the independent primary act of 1882, under which Portsmouth had been holding its primaries, as that statute specified that primaries could not be held not more than thirty nor less than twenty days prior to an election, whereas the primary had been ordered for May 27th, and the election was not until August.

Judge Bain, in refusing the injunction prayed by the petitioners, without going into the merits of the law in the case, simply stated that the complainants had failed utterly to show wherein they would be injured by the proposed primary.

FAR-REACHING DECISION.

Creditor May Hold Corporation's Successor For Debt.

Washington, April 30.—In a decision of momentous importance, especially as to railroads, the Supreme Court has laid down the general principle that a creditor of a corporation, not a party to its organization, may hold its successor for debt.

In this specific case, the court, five to four, i na decision which Justice Lurton, who dissented, declared was "alarming" held the Northern Pacific Railway Company responsible for a $125,000 judgment against the Northern Pacific Railway Company which it succeeded, despite the fact that the court expressly stated that no mental wrong doing was to be found in the reorganization.

Corporation lawyers declared it was a direct blow at the practice of reorganizing corporations to get rid of onerous contracts or escape payment to unsecured creditors. Its effect they thought, would be far-reaching.

DEATH OF PROF. FONTAINE.

He Was a Member of the University of Virginia Faculty and Author.

Charlottesville, Va., April 30. — Prof. William M. Fontaine, 72 years old, died suddenly at the residence of Dean James M. Page, at the University of Virginia yesterday.

He was born in Louisa county, Va., of Hugenot descent. He entered the University of Virginia in 1856, from which he was graduated with the degree of Master of Arts three years later. He afterwards went abroad and studied in the School of Mines, at Friesberg, Saxony. He taught for a time in Hanover Academy.

At the beginning of the war he entered the Confederate army as second lieutenant of artillery. In 1862 he was made first lieutenant of ordnance and held that position until the close of the war.

He then went to the University of West Virginia as professor of natural history and geology.

Professor Fontaine wrote "Resources of West Virginia," published in 1876, the report on "Perman Flora of South Western Pennsylvanai and West Virginia," monographs of the United States Geological Survey and the bulletin on "The Potomac Formation."

Three years ago Prof. Fontaine was invited to go on the Carnegie Foundation for the Encouragement of Teaching, and his acceptance was announced at the finals of June, 1910. He became professor emeritus after 31 years at the head of the School of Natural History and Geology. He was a fellow of the American Geological Society and a member of the Hugenot Society of America.

CIVIL SERVICE BARS TO REMAIN

Many Charges Are Made of Favoritism Towards Republicans.

LAWS TO BE REVISED.

Total of 28,000 Officeholders in Washington and 238,617 in the Country to be Investigated.

Washington, April 30.—The horde of office seekers in Washington are on the anxious seat today, following the announcemnt that Senator Pomerene intends to turn the searchlight on the civil service, to find political corruption.

Repeated charges that Republican Administrations had used the service to aid the party had led to the hope that the bars would be let down for the Democrats.

Possibilities of a general overhauling of the civil service laws affecting 28,000 government employes in Washington, and 238,617 in the whole country lies in the plan.

If the disclosures which come from the proposed resolution, or any investigation which may be made show that the widespread abuse and corruption which is alleged exist, then it will be up to Congress to enact new legislation, which will tighten up the civil service law and make such abuses impossible.

It is believed that if the facts are shown to be as charged, President Wilson, who has always stood by the civil service system will insist that the civil service laws be given a thorough overhauling.

MOVEMENT TO REPEAL TREATY.

Washington, April 30.—There is considerable probability that the present anti-Japanese agitation in California will result in the abrogation of the commercial treaty between this government and Japan, and the drafting of a new convention between the two countries.

Following Secretary Bryan's proposal to the Californians that they suspend the passage of the anti-Japanese act until the president has had an opportunity to negotiate a new treaty with the Eastern power, in place of that executed in 1911, it was learned today that such a course already had been seriously considered by the administration.

The existing treaty with Japan is far from satisfactory. It was drawn to meet a temporary situation arising out of the agitation on the Pacific coast over the Japanese school question. The working of the treaty has been unsatifactorily to Japan, as well as to the United States. There is no provision in it for the acquirement and holding of land by either Americans or Japanse, and there are many other omissions which do not appear in the commercial treaties with other nations.

Secretary Bryan's sugestion in regard to the negotiation of a new treaty to replace the present one was picked out by Washington officials as the most interesting development in his negotiations with the California legislature. It is believed the question of the possibility of framing a new treaty satisfactory alike to the Californias and Japanese, within a reasonable time was considered at yesterday's cabinet meeting. This phase of the situation accounts also for another visit which Viscount Chinda, the Japanese ambassador, made to the state department yesterday. The Impression here, however, is that the negotiations of a new treaty in place of the present one is the utmost concession that the Wilson administrations is willing to make to the Californians.

G. F. S.

A measuring party is given to you,
It is something novel, as well as new,
A nickel for every foot you're tall
Measure yourself on door or wall,
An extra cent for each inch give
And thereby show how high you live;
With music and game, refreshment and pleasure,
We will meet one and all at our party of measure.
Bring your friends.

LONDON POLICE RAID MILITANTS

Attack Headquarters of Suffragettes and Destroy Furniture.

ARREST OBJECTORS.

Police Use Suffragette Methods of Smashing Home of Union at Newcastle-on-Tyne.

London, April 30.—Evidently "fighting fire with fire," Home Secretary McKenna turned "militant" today, and Scotland Yard raided the Women's Social and Political Union headquarters, in King's Way, hotbed of suffragette militancy.

Superintendent Quinn, of the Yard, led the spectacular raid, witnessed by thousands, and all books, documents, and literature of the union were confiscated. Suffragettes who objected too strenuously were promptly arrested and jailed.

About the same time, the suffragettes of Newcastle-on-Tyne discovered that their local women's social and political union headquarters had been forcibly entered in the day and smashed as completely as though the militants themselves had done the job.

A dozen or more women of the union, including Mrs. Despard and the "cabinet," were in the place when the raid occurred, but they were taken by surprise, and had no time to hide or destroy anything before the policemen hustled them into the street.

In spite of the angry protests of the suffragettes, Superintendent Quinn searched the entire building for documents any other evidence that might make legal evidence against the militants, and confiscated all the books and records of the organization.

All the women were forced from the building, and warned not to try to come back. They were told they would be arrested if they did so. A cordon of uniformed officers surrounded the headquarters and when the detectives had finished their search, Superintendent Quinn locked the offices and left plain clothes men on guard within and without.

The suffragettes who were ejected from the union headquarters collected on the sidewalk outside the police line and angrily denounced the officers.

AVERSE TO WOMEN.

Longworth's Successor Assails for Land Office's Selection.

Washington, April 30.—Congressman Stanley Bowdle, who succeeded Nicholas Longworth in the House, today went on record as averse to the appointment of women to well-paying federal jobs, particularly where the woman in question owned a "supporting husband."

In a statement calling attention to the appointment by Secretary of the Interior Lane of Mrs. Rogers, as receiver of the land office at Leadville, Col., he declared he saw in the appointment a "further evidence of a degenerate movement in America," and he asked the "men of America to take note."

"This appointment o fa woman, already a supported wife to an office carrying a salary, which in the hands of a young man would allow him to marry a wife and rear children is an injury to the integrity of the family on which civilization is bused," Bowle declared.

Referring to the alleged statement by the secretary that "it is an established fact that money can be handled more safely by women than by men," Bowdle invited Lane to "resign his job in favor of a woman if he believes what he says."

"It is idle," the Ohio member concluded "to put up monuments to the nation's worthies when Cabinet officers declare the moral inferiority of our sons."

A marriage license was issued in Washington today to Benjamin L. Carter and Elsie G. Javins, both of Alexandria.

Elliott's bargain sales every Thursday should not be missed.

NEGRO SAVED FROM A MOB

Bicycle Thief Supposed to Have Assaulted a White Woman

There was considerable excitement in Rosslyn, Alexandria county, yesterday when after threatening a policeman with a razor, a negro bicycle thief, who has a record as a jail breaker, was chased into that place by a crowd of 300, who, with all sorts of firearms, sent a shower of bullets after him. When he was caught under a building, the excited gathering, many of whom had seen him flash the razor, had a rope ready, and were only deterred by the firmness of the policeman and two Rosslyn officers from violence as it was suggested he had attacked a white woman.

The negro was about to pedal across the Aqueduct bridge from Georgetown, when he was pointed out to Bicycle Policeman Burke Burke, of Washington, by a negro boy, who had been found with a stolen bicycle which, he told the potice, had been sold to him by theman whom he indicated to be Burke. The policeman jumped on his wheel and started across the bridge in pursuit.

When Burke overhauled the engro and ordered him to halt, he swered sharply to the right, and his bicycle sideswiped Burke's throwing riders and machines in a heap. The negro quickly got to his feet, brandished a razor as Burke picked hmself up, and then fled when the officer reached for his pistol.

The negro took refuge under the gashouse, behind the Rosslyn postoffice. There he was arrested by Burke, Deputy Sheriff Palmer, and Deputy Marshall Katon. At the police station he said he was William Hariston, 27 years old, and that he resided in Washington. The police say Hariston escaped from Occoquan a few weeks ago, and also escaped from the jail in Alexandria three years ago by beating the jailer and his wife, for which he served two years in the penitentiary in Richmond.

PRIZES FOR FLY SWATTERS.

Campaign to Last Five Months Commences Tomorrow.

Commencing tomorrow the Health Department of the city government will inaugurate a fly swatting campaign similar to the one which was conducted last year and several hundred boys and girls will enter their names a scontestants. The campaign will last five months and prizes will be awarded each month. The list of prizes is not yet complete owing to the lack of contributions to the fund but Dr. E. A. Gorman, health officer, has announced that the prizes for May will be as follows: First prize, $15; second prize $10, and third prize, $5. Boxes to contain the flies have been donated by George P. Killian Co., of Washington.

SMILING MONTH OF MAY

April About to Make Adieu Leaving Northwester and Chilly Conditions

The rainy, cold and unseasonably weather of the past few days culminated last night with a brisk northwester, suggestive of March. It was reported in market this morning that some countryman had seen ice early this morning, but it was generally believed he was a subject of optical delusion.

From time immemorial the month of May, which makes its advent at twelve o'clock tonight, has been hailed with joy. Amongst the Romans the feeling of the time found vent in their Floralia, or floral games, which began on the 28th of April, and continued a few days. Nations taking more or less their origin from Rome have settled upon the first day of May as the special time for fetes of the same kind.

Among our English ancestors May Day was regarded as a joyous occasion, during which the fairest maid of the village was crowned with flowers as the "Queen of the May" and the King and Queen mingled with the peasantry on the occasion.

The first of May attracts but little attention in the United States although incertain localities the "May Pole Dance" is still a rural enjoyment on that day. About the only relic left of the many features incident to the enjoyments of the younger generation on the first of May is the legend that the first female met by a young man on that morning is destined to be his future partner in life, and the first male encountered by a young woman will be her husband.

SERVICES AT TRINITY CHURCH.

Rev. J. F. Prettyman, Chaplain U. S. Senate, Will Preach Tonight.

Rev. Don S. Colt, D. D., of Baltiservices in Trinity M. E. Church last night. All who were present felt that it was good for them to have been there, and are profuse in their expressions of appreciation.

Rev. J. Forrest Prettyman, chaplain of the United States Senate, will occupy the pulpit tonight. Mr. Prettyman needs no introduction in Alexandria, as he has often preached in this city, and all who may attend will doubtless be instructed as well as edified by his disclosure.

MOOSE ENTERTAIN LAST NIGHT.

Large Audience Present at Open Meeting of Virginia Lodge.

Virginia Lodge, No. 1076, Order of Moose, held an entertainment last night in the Elks' Auditorium.

New Belgian Cocoa Matting;
The Ideal Summer Porch Floor Covering

The summer porch floor covering must be able to withstand severe wear and weather. This Belgian Cocoa matting, which we have just received, will meet these conditions absolutely. It is made of unfadable colors that will not be changed by the sun or rain. It is strictly hand-woven, two yards wide, and is reversible, adding thereby to its great durability and serviceableness. Shown in plain shades, also in neat designs of bright India colorings. This can be furnished in any desired length. Let us measure your porch and give you an estimate of cost for its covering.

Our assortment of rugs and floor coverings of all kinds is splendidly complete. We invite especial attention to the new designs and colorings which we now show in Deltox and Crex Carpet Rugs. The range of sizes is large and affffords excellent choice.

NEWS OF THE OLD DOMINION.

CAMPAIGN IN BRISTOL.

Stirring Crusade Against Saloons in Progress.

Bristol, Va., April 30.—The temperance people of Bristol, now in the midst of a stirring campaign to rid Bristol of saloons, were keenly disappointed Saturday evening, when news came from Washington of a wireless mesage from the bosom of the Atlantic, announcing that Captain Richmond Pearson Hobson, owing to imperative duties, would be unable to meet his engagement to speak here last night in connection with the temperance campaign.

The ladies of the Woman's Christian Temperance Union had made up money sufficient to make the Hobson address free to the public, and the woman had resolved to stay away in order that every available seat might be utilized by the men upon whose vote on May 9th the issue of saloons or no salons depends.

An effort will be made to have a prominent spaker here before the end of the week, as the temperance people feel that something must be done to make up for the absence of the distinguished Alabama at this crisis in the present struggle.

NAMES "MOTHER'S DAY"

Governor Issues Proclamation Calling for Support of Movement.

Richmond, Va., April 30.—Governor William Hodges Mann yesterday issued a formal proclamation designating May 11th as "Mother's Day," and calling upon the good people of the Commonwealth to enter heartily into its objects and purposes.

Local organizations responsible for this movement have purchased ten thousand white carnations at a cost of 4 cents a piece, and these will be sold on the streets at 10 cents each, the profit to be devoted for a fund for the relief of the poor and needy. The Governor calls upon the people of the state everywhere to remember "mother," respond liberally to this movement and wear the white carnation.

The observance of "Mother's Day", and the sale of the white carnations, which the promoters believe is the typical badge of all that the word "Mother" exemplifies, will be carried out in every city in the state.

BODY FOUND IN RIVER.

Means of Identification of Deceased Lacking.

Petersburg, Va., April 30. — The body of an unidentified white man was found floating in the Appomattox river late Monday afternoon near the intersection of the James and Appomattox rivers.

The only marks which might serve as means of identification were a silk handkerchief with the initial "F" and a pocketbook containing 95 cents in change and several Richmond and Henrico street car tickets.

The man was about five feet six inches in height with dar khair and six teeth. He wore dark clothes, and black No. 7 shoes. His body appeared to have been in the water some time, and was so badly decomposed that it was impossible to judge as to his age.

INFECTED BY COW.

Rabies Developed Near Hillsville After Three Months.

Richmond, April 30.—Two young girls from Carroll county, who drank the milk of a cow infected with rabies, arrived yesterday morning to take the Pasteur treatment from the State Health Department.

About three months ago a young man named Marshall came from Carroll and was treated by Dr. Meade Fergusson, the state bacteriologist. He had been bitten by his own dag, which a short time before had engaged in a fight with a strange animal. Marshall's dog also bit the cow of a neighbor, a widow. The parties live at Ocala, seven miles from Hillsville.

Dr. Tipton, the family physician, on being consulted about using the milk from a cow bitten by a mad dog, advised that the milk be thrown away for sixty days. This was done, and after that time the family resumed the use of the milk.

Just three months and one week from the time the cow was bitten she developed violent rabies, dying a few days ago. The family had used the milk up to the night before she was attacked by hydrophobia.

It appeared that the milk, which has been shown by tests to contain virus in such cases, would injure the human system only if it came in contact with an abrasion on the lips or tongue, or in the internal organs. Dr. Tipton, learning that Claude Montgomery, fifteen years old, and Josie Barnes, aged seventeen, had fever blisters when they drank the milk, advised that they take the Pasteur treatment in Richmond.

YOUNG MAN KILLED.

H. G. Stevens is Struck by Train And Fatally Injured.

Suffolk, V.a, April 30.—Henry Grady Stevens, 23 years old, employed by the John L. Roper Lumber Company, was struck by a Norfolk and Southern train Monday and died several hours later in a hospital.

Stevens was standing on the track talking to his brother and did not notice the approaching train. He was knocked down and when picked up was unconscious. He died from internal injuries.

DEATH OF RICHARD D. LARKIN.

Former Citizen of Prince William County Passes Away.

Manassas, Va., April 30.—Richard D. Larkin, 77 years old, a Confederate veteran of the Seventh Virginia cavalry died Sunday in his residence, 1444 W. street, northwest, Washington, D. C., after a short illness.

Mr. Larkin moved from Prince William county, Va., to Washington, in 1905. Surviving him are his widow, Mrs. Sarah Jennie Larkin; two sons, Wm. A. and Harrison D. Larkin, of Washington; four daughters, Mrs. Charles Conley and Miss L. May Larkin, of Washington; Mrs. J. W. Dunbar, of Haymarket, Va., and Mrs. E. B. Witt, of Bluefield, W. Va. There are sixteen grandchildren and a great-grandson.

The funeral services were conducted in the home yesterday morning at 10 o'clock.

Flood Succeeds Himself.

Washington, April 30.—The Virginia congressional delegation held a meeting yesterday and elected Representative Flood to succeed himself as the Virginia member of the National Democratic congressional committee. For the past two years Mr. Flood has acted as treasurer of the committee, but as the treasurer is always appointed by the chairman, there is no surety that he will continue as treasurer.

CONSOLIDATION EFFORTS FAIL.

Owners of Harrisonburg Papers Cannot Agree on Editor.

Harrisonburg, Va., April 30.—That Senator George B. Keezell, chief owner of the Rockingham Daily Record, and Robert B. Smytha, principal owner of the Harrisonburg Daily News, have held several conferences with a view to consolidating the two papers is disclosed by public statements made this morning, both men explaining the hitch that brought the conference to a close without any result.

It turned out that the two parties interested could not agree upon the editor of the proposed consolidated paper. H. W. Bertram is editor of the Record, and J. H. Robinson, is editor of the News.

The two papers have carried on a bitter warfare for nearly two years, and the fact that representatives should get close enough together to discuss the proposed consolidation is a matter of surprise to many people.

DEMAND PROTECTION.

Will Operate Street Cars With Strike-Breakers.

Asheville, N. C., April 30.—A demand for adequate protection for its strike-breakers and property, made to the city and county authorities by the Asheville Power and Light Company, a reply by the Mayor that he and the police authorities stood ready to meet all demands made upon them, and an announcement by the street car company that it would operate its cars today with experienced men, were the chief developments of this, the fourth day, of the strike of motormen and conductors on the local street railway system. The demand of the company was based on its rights as a lawabiding taxpayer, and its desire to conduct a lawful business.

Fifty strike-breakers are already quartered in the company's car barns, where a week's provisions have been stored. Yesterday afternoon a barricade fourteen feet high was erected across the caryards, only the space of a single track being left open.

Beyond small gatherings of the curious and idle, the streets of the city were comparatively quiet last night.

TRIBUTE TO JUDGE MASSIE.

Hang Oil Portrait of Lamented Jurist in Pulaski Court.

Pulaski, Va., April 30.—A splendid oil portrait of the late Judge Thornton L. Massie was placed in the courtroom of the Pulaski county courthouse Monday. It hangs immediately over the bench which he occupied when sitting during the session of the Circuit Court of the county. The picture is framed in a handsome gold-tinted frame. The picture was placed through the influence o fa number of friends in Pulaski. Judge Massie, whom the whole city loved as one of her best citizens, was shot while holding the regular sesssion of the Circuit Court of Carroll county at Hillsville, March 14, 1912.

AGGRESSIVE JAPANESE AGAIN IN EVIDENCE.

The chronic anxiety among people of the Pacific coast caused by the aggressiveness of Japan, it is reported, is about to be shared by people of the Atlantic seaboard, as it alleged that nation is endeavoring to obtain a foothold in the Carribean Sea, and in close proximity to the entrance to the Panama Canal.

An alleged plot of the Japanese to secure a naval coaling station in the Caribbean Sea, within 50 miles of the Atlantic end of the Panama Canal, and in violation of the Monroe Doctrine, was made known in New York yesterday, when the United Fruit Company's steamship Sixaola docked. George T. Burns, an agent of the CaribbeanGuano Company, who was a passenger, said that the Japanese government was negotating for the purchase of Roncador Island.

"The island," said Mr. Burns, "is now the property of the Caribbean Guano Company. It has a superb harbor, and would make a good coaling base for any navy. Ostensibly the Japanese are negotating through a steamship company, of which a man named Arai is the head, for a harbor for a steamship line which shall communicate with the ports on the Eastern coast of the United States and South America.

"When the company sent its surveyors to the island, however, it looked to me as though the surveyors were much more interested in the military preparedness of the island for defense than they were in the natural resources or the shipping facilities it afforded. The place is very rich in the fertilizer which is only found in tropical islands and is known as guano. The guano on Roncador can be mined for 30 years more at least. But the Japanese took no interest in the guano and devoted their attention to surveying the island for possible defenses.

"The harbor is perfectly fitted to make a coaling station. Coal, you know, will not disintegrate under water, and in the harbor of Roncador there would be no difficulty whatever in storing 300,000 tons of coal in perfectly protected and easily accessible spots. The water is sufficiently deep and the channels are straight enough to admit the largest warships, while at the same time there is sufficient facilities for the smallest submarine or torpedo-boat to be perfectly protected from any stress of weather."

It was recalled that Mr. Arai was the head of a steamship company that tried to get a station in Lower California two years ago.

NO PLACE LIKE A HOME OF YOUR OWN.

The lines of John Howard Payne strike a chord which makes all the world akin. Rich and poor alike sigh for a home, no matter how humble. The monotony of hotel life, with all its luxurious surroundings, become tedious to the millionarie, after the members of his direct family have passed into the other world, and he is spending his life at watering places and magnificent hostelries. Like the wandering Jew, he often envies the cottager with his frugal meal and ordinary surroundings.

It is said by people who have visited the tropics and tested the many fruits which grow in that zone that there are times when they have sighed for a Virginia apple or a luscious peach, after having drank from pitcher plants and eaten custard fruit.

Ramona Borden the 17-year-old daughter of Gail Borden, is of this class. Smiling in her happiness at being again with her mother, she yesterday told the story of her mysterious flight from the sanitarium at Pompton Lakes, N. J., and now she eluded her followers until her father found her in Boston after a four-day search. "I was just tired of going from one hotel to another, one school to another," she said, "I wanted a home and the love of my mother. It was for my own welfare that I went away. I'm not nervous, as they have said, and I would be a happy girl if I only knew a home. I've been abroad, and I've had all the luxuries for which I asked, but I never had a home."

NATURAL RESULTS OF THE SOCIAL SWIRL

The exhaustion incident to mingling in the social world is soon felt by those whose "sober wishes ne'r learned to stray from the cool, sequestered vale ofl life." When General Sherman held the position of General of the army shortly after the close of the civil war he took up his residence in Washington on a salary of $16,000 a year. Later he announced his intention of removing to Chicago, giving as his reason that he and his family were unable to stand the strain incident to entertaining and being entertained. Among other things he said the members of his family were worked down, being on the go all the time. While his salary was insufficient to meet his expenses.

Mrs. William Jennings Bryan, wife of the Secretary of State. is said to be a patient at the Washington Sanitarium, recuperating from an attack of nervousness, brought about by recent social activities. The social demands made upon Mrs. Bryan's time and strength recently have been so strenuous that she determined during the absence of Secretary Bryan in California to take advantage of the opportunity to indulge in a rest cure.

PROFESSOR MAKES A DIRE FORECAST.

The earthquake shocks in the northern section of the United States and portions of Canada last Monday nighta re, it is said, to be followed by more violent disturbances over a larger area of this continent. According to the forecast they will be more pronounced than the terrifying seismic disturbance of August 31, 1886.

A St. Lawrence University professor, who is a reputed earthquake authority, says the shock felt through the St. Lawrence region Monday night is only a forerunner of a more serious and disastrous quake that will occur soon. This coming shock, he says, will extend from the St. Lawrence Valley along the Atlantic Coast to Alabama, and will be accompanied by great seismographic disturbances. Monday's shock, declares this authority, was the most serious since the great quake in 1863.

TRIBUTES TO DR. LLOYD.

Newspapers of Virginia Publish Complimentary Editorial of Former Alexandrian.

There have been many beautiful tributes paid by the newspapers of Virginia, to Dr. John L. Lloyd, the beloved archdeacon of the Diocese of Virginia, formerly a resident of Alexandria, whose death occurred last Saturday.

The Roanoke World-News says:

"He went often outside the beaten path into distant places. Accompanied by his wife, who is devoted to the undertakings of the church and the cause of missions, he visited the heart of the mountain sections, lingered among mountain people, and carried to them many uplifting messages. Before he entered into the mission field Dr. Lloyd filled the pulpits of several well known churches, and the congregations whom he served bear him in grateful memory. Wherever he went and wherever he served, he was honored, esteemed and loved, and the work he accomplished is recorded not in bronze or marble but in the hearts of his friends and parishoners. Dr. Lloyd was one of the best men that ever lived. He was consecrated to the cause of the Christian religion, working with singleness of purpose for the moral welfare of those among whom he lived, and already and willing to sacrifice himself for others. His generous thoughtfulness, kindly sympathy, and earnest patience, were among his most prominent characteristics, and wherever his labors carried him, into cities or mountains they drew the hearts of people to him and brought them within the radius of his friendship. To hundreds and thousands of persons Dr. Lloyd has been a comfort and inspiration giving them peace and hope in times of affliction and courage in times of despondency. His death is the closing of a life of deep piety and of unmeasured usefulness, and the sorrow that it brought to those who loved him will leave traces that years will never efface."

The Lynchburg Advance says:

"Few men have been so generally beloved by Lynchburg people as Archdeacon, Dr. J. J. Lloyd, of the Episcopal diocese of Southern Virginia who passed away yesterday. During his work here he put his impression upon the entire community—the impress of a strong man and an unselfish, intelligent, big-hearted servant of God and his fellow-men.

Dr. Lloyd was always a missionary in the truest sense of the word. There wes something valiant about him that could not fail to let all know in the very instance of his presence, at the veriest glance into his rugged, smiling face, that he was a soldier of his faith; and yet his tenderness and sympathy were proverbial. He fought with the weapons of live. Regardless of doctrine and of creed, of condition or human barriers, he conquored. The greatness of his victories, even those whom he won could not but feel, were not his but of Him that sent him.

His community and his state have profited in the things that count by his life and his work."

The Lynchburg News says:

"There be many, very many people in Lynchburg to whom the announcement of Archdeacon Lloyd's death carries the sense of deep personal bereavement. Dr. Lloyd had lived in our midst so many years; he had labored here so earnestly; he had accomplished here so much for human happiness and uplift, the grace the charm, the magnetism and, too, the vigorous robust force of his personality, had drawn others to him in such large numbers that small the wonder is, there are hundreds in the city now who are grieving much that he has been taken away."

Probate Judge W. P. Rolland was shot at four times yesterday, at Upper, Sandusky, one bullet penetrating his arm and another glancing from his collarobne. John Bordman, a wealthy farmer, who had failed to have a civil suit against him dismissed did the shooting. He surrendered to the police.

SMILES.

By The Second Ward Bard.

AS IT WAS IN THE BEGINNING.

Diogenes hunted the highways and towns
In search of an honest man,
Bad luck would attend him upon his sad rounds,
Wherever his pathway ran.
This ancient and dolorous guy must have had
A wretched and miserable life,
His liver was cranky, his heart it was bad,
And his way was oft crowded with strife.

And yet his descendants are with us today,
And keep up their heart-rending wail,
If their fellow-men had their rights, they all say,
Each one would be landed in jail,
No man has good motives or wants to do right,
Each one they suspect of some wile
It's only themselves who can stand in the light,
It's but for themselves they can smile.

Well, the big Swede ought to take one from the Athletics today. That will make it an even break.

We don't know whether the spring rains have anything to do with it or not, but the June crop of brides seems to be promising.

Welcome, mery sunshine, we're glad to see you back,
We've missed you for a day or two you know,
And when your warmth is absent your smiles we sadly lack,
For we much prefer your rays to rain or snow.

A New Kind of Roofing

Asphalt Gravel That Will Last Ten Years—Can Be Used Anywhere.

Cumberland, Md.—Among the many improvements at the Y. M. C. A. Building is the asphalt gravel roof (Security brand) that was put on under the direction of Mr. Adam May.

A fairy tale is told about this roofing by Mr. A. M. Strickland, of Elkton, Md. About ten years ago he built at the Elkton foundry and covered the roof with Security Asphalt Gravel Roofing and four years afterward the building and contents were consumed by fire. Nothing was left but the walls and roofing.

Being of an economical turn of mind he ordered the carpenters to cut down the roofing in strips, losing only the laps.

He used these strips of roofing on the new foundry buliding and it is in good condition today after ten years of active service.

It would be difficult to believe such a tale, because tin, iron and slate or any other composition roofing would have gone to smash or curled up and blown away in such a conflagration.

There is reason to believe this is true, because it stood the test in a similar fire in the B. & O. hay shed at Mt. Clare station, Baltimore ,some years ago.

This roofing can be purchased of

vs. in Chancery.
Sarah F. Davis.

Upon the application of the complainant stating specifically the last known place of abode of the defendant, the court on this 13th day of March, 1913, doth grant the following order of publication:

The object of this suit is to obtain for the complainant a divorce from the bond of matrimony from the defendant on the ground of desertion and abandonment for a period of three years before the bringing of this suit and adultery committed by the said defendant and for general relief, and on affidavit having been made and filed that the defendant, Sarah F. Davis, has not been found within the jurisdiction of the State of Virginia, and that she is not a resident of the said State, it is ordered that she do appear here within fifteen days after due publication and do what is necessary to protect her interest in this suit.

And it os further ordered that a copy of said order of publication be published once a week for four successive weeks in the Alexandria Gazette, a newspaper published in the city of Alexandria, Virginia; that a copy be posted at the front door of the Court House of the said city on or before the next succeeding rule day after this order is entered and that a copy of said order of publication shall be sent by registered mail by the Clerk of this Court addressed to the said non-resident defendant Sarah F. Davis at Hotel Johnson, 13th and E streets, N. W., Washington, D. C., her last known place of abode.

VALLEY MAN BUYS AIRSHIP.

Resident of New Market Gets Biplane and Expects to Make Flights.

New Market, Va., April 30.—The first aeroplane purchased by a valley man arrived at New Market depot Saturday morning and was moved to the home of John E. Kingan, the purchaser, Saturday afternoon. A mechanician is expected to arrive in a few days to asemble the hundreds of parts and acquaint Mr. Kingan with its mechanism. The machine of the Curtis biplane model somewhat similar to the one used by Hamilton at the Rockingham fair last October, although it is considerably larger, and is built to carry two passengers. The planes are 40 feet long. The machine is equipped with a fifty horse-power motor. Mr. Kingan soon expects to be able to operate the machine and will give exhibition flights.

OPPOSE WOMAN SUFFRAGE.

Cardinal Pleads For Dignity of Woman.

A letter from Cardinal Gibbons opposing woman suffrage was read at a mass meeting in Baltimore last night under the auspices of the Maryland Association Opposed to Woman Suffrage. The Cardinal said in part:

"Equal rights do not imply that both sexes should engage promiscuously in the same pursuits, but rather that each sex should discharge those duties which are adapted to its physical constitution and are sanctioned by the canons of society.

"When I deprecate female suffrage I am pleading for the dignity of woman. I am contending for her honor. I am striving to perpetuate those peerless prerogatives inherent in her sex, those charms and graces which exalt womankind and make her the ornament and the coveted companion of man.

"We must remember that though woman does not personally vote, she exercises the right of suffrage by proxy. So powerful is in the influence which a sensible matron exerts over her husband and sons that they will rarely fail to follow her counsel which comes from inspired rather than labored reasoning."

IRON WORKER ENDS HIS LIFE

Despondency Causes W. T. Leibs to Fire Load of Bird Shot Into Stomach.

Richmond, Va., April 30.—William T. Leibs, 38 years old, an ironworker, committed suicide yesterday afternoon about 5 o'clock at the home of his mother, Mrs. Sarah A. Leibs, by shooting himself in the stomach with a shot gun. A load of bird shot passed upward through his body, inflicting wounds which caused his death in less than an hour. Despondency, it was said, was the cause of his act.

Leibs, his mother said, had been out of work for some time, and until yesterday had not been drinking for nearly aweek. He spent most of the day in the house, and she noticed she said last night, that something was wrong with him, but he denied that he felt ill when she made inquiries.While she was preparing supper in the kitchen he left her and went to her room on the second floor. Less than fifteen minutes later Mrs. Leibs heard a shot. She ran up stairs, and, lying on the floor of the room, she saw the prostrate form of her son.

JAPAN IS FRIEND OF U. S.

Wants No War With This or Any Other Country.

Richmond, Va., April 30. — There is no possibility of war with Japan according to Yutaka Minakuchi, a Christianzed Japanese, in an address before the membership campaign campaign workers at the Young Men's Christian Association building last night.

Mr. Minakuchi said that Japan has the friendliest feelings for the United States and has no desire to go to war with this country or any other. His remarks were incidental to his address, which was eulogistic of the work of the Y. M. C. A., but were spoken with evident earnestness.

To The Citiezns of Alexandria and R. F. D.'s

As certain candidates have seriously stated that I am out of the race for Postmaster of the city. I desire to correct the error, and to state that while I do not care to annoy my friends or the public by begging signatures to useless petitions, that after 40 years' service to Alexandria and the Democratic party, I am, at least, a receptive candidate for the position, other active candidates to the contrary notwithstanding.

Climate Failed; Medicine Effective

It has been absolutely shown that rest, fresh air and good food do help many persons suffering from Tuberculosis. But it must be admitted that the disease is seldom more than "arrested." Something more is needed.

Eckman's Alterative is a medicine made for the treatment of Tuberculosis. It has conquered this disease again and again. Often these benefits have been effected where the surroundings were not ideal—yet recoveries resulted. Now we argue that Eckman's Alterative should be used in every case of Tuberculosis, in addition to good, nourishing food and fresh air, which we all need. A remarkable case follows: Weldon, Ill.

"Gentlemen: Through Eckman's Alterative I have been saved from a premature grave. On December 14, 1904, I was taken with Typhoid Pneumonia. My lungs became very much affected; my sputum was examined and Tuberculosis Bacilli were found. On February 21, 1905, I was advised to go to Fort Worth, Texas. While there an abscess in my right lung broke and discharged. I grew worse, and became very much emaciated. My physician informed me that I must go to Colorado as quickly as possible. I left Texas, June 21 and arrived in Canon City, June 3 very feeble. After being there two weeks, my physician informed me that my case was hopeless. Three weeks later I returned home, weighing 103 pounds, the doctor having given me no assurance of reaching there alive.

"On July 14, 1905, I began taking Eckman's wonderful remedy for Consumption. Today I weigh 158 pounds. I am stout and well and can do any kind of work about my grain elevator. I have not an ache nor pain in my lungs, eat well, sleep well, and never felt better."

(Sworn affidavit) ARTHUR WEBB.

Eckman's Alterative is effective in Bronchitis, Asthma, Hay Fever; Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for more evidence. For sale by all leading druggists

WHAT SAVED HER LIFE

Mrs. Martin Tells About a Painful Experience that Might Have Ended Seriously.

Rivesville, W. Va.—Mrs. Dora Martin in a letter from Rivesville, writes: "For three years, I suffered with womanly troubles, and had pains in my back and side. I was nervous and could not sleep at night.

The doctor could not help me. He said I would have to be operated on before I could get better. I thought I would try using Cardui.

Now, I am entirely well.

I am sure Cardui saved my life. I will never be without Cardui in my home. I recommend it to my friends."

For fifty years, Cardui has been relieving pain and distress caused by womanly trouble. It will surely help you.

It goes to the spot—reaches the trouble—relieves the symptoms, and drives away the cause.

If you suffer from any symptoms of womanly trouble, take Cardui.

Your druggist sells and recommends it. Get a bottle from him today.

JEWS HAD PILGRIM FATHERS.

Novel Celebration by Keneseth Israel Sisterhood.

Philadelphia, April 30.—For the first time in the history of the Jews of America a Jewish Pilgrim Father's Day is to be celebrated here this evening. At the time of the celebration of the two hundred and fiftieth anniversary of the landing of the Jews in New Amsterdam, Rev. Joseph Krauskopf, of Temple Keneseth, Israel, advocated such an annual celebration if for no other reason than to show to the non-Jewish world that the Jewish-Pilgrim Fathers came to America only 15 years after the New England Pilgrims landed on Plymouth Rock.

The celebration at Temple Keneseth Israel this evening is under the auspices of the thousand and more women of the Sisterhood of the Congregation.

CARRIED TO THE GALLOWS.

Slayer of Son-in-Law Broke Down, Widow Ready to Marry.

Greensburg, Pa., April 30.—Domenick Petrelli paid the death penalty in the Westmoreland county jail yesterday morning, for the murder of his son-in-law, Ferdinand Salvitore.

Following a solemn leave-taking of all his fellow-prisoners in the county jail, Petrelli's nerve failed him completely, and he had to be carried to the scaffold.

Deserted by every member of his family, with the exception of his 14-year-old daughter Albina, the condemned man bore up bravely until about an hour before the execution. He then began to grow nervous and when the time came for the march to the scaffold his legs refused to perform their duty.

Petrelli has never had the comfort of his wife since the trial ended. When he was convicted the wife left town and has not been back here since. She sent inquiries from Baltimore to local attorneys for a certificate of the death of her husband after the execution, so that she may remarry. The attorneys will refuse to have anything to do with this part of the case, and let the widow secure her credentials of widowhood from the county officials.

ATTACK ON JACKSON.

Representatev Chandler Answers Mr. Heflin

Congressman Thomas Hefin, in a partisan speech in the House, satrically termed Colonel Roosevelt "the wild man from Africa," and invoked the blessing upon Democrats of the shades of Andrew Jackson.

During the general tariff debate, Mr. Chandler, of New York, said:

"My esteemed colleague from Alabama calls Roosevelt "the wild man from Africa," and, in the same breath invokes the spirit of Andrew Jackson upon the deliberations of a Democratic congress. When Jackson went to Salisbury to study law, they called him the most roaring, rollicking, game-cocking, horse racing, card playing, mischevious fellow even seen in this town.

"But mind you, this was only the boy, the stripling, the sapling, if you please. This was not 'Old Hickory,' the grown up tree, with gnarled branches and ripened trunk.

"Jackson once killed a man named Charles Dickinson in a duel; he threatened to hang Calhoun as high as Haman; tried to horsewhip Thomas Benton, challenged General Wingfield Scott to a duel; overran Florida with executive orders and had two eminent British gentlemen hanged, thereby nearly bringing us into war with Great Britain and Spain; and, when Presidents broke up his cabinet by his own headstrong violence."

BLOODY SHIRT FOUND.

Property of Negro Who Discovered Body of Mary Phagan.

Atlanta, April 30.—Efforts of the police to establish the identity of the person or persons who killed 15-year-old Mary Phagan and placed her body in the basement of the National Pencil Company's factory there, where it was discovered early Sunday morning, have so far been futile, and the case is as much a mystery as ever.

Three events of interest in connection with the case occurred yesterday afternoon. First came the arrest of Leo M. Frank, superintendent of the pencil company, on a blanket charge of suspicion.

The second development was the finding by detectives of a blood-stained shirt at the home of the negro, Newt Lee, night watchman, who reported the discovery of the girl's body to the police. It is said Lee admitted owning the garment, but claimed not to have seen it for more than a year. The police contend that the blood stains are comparatively fresh. In support of the theory that the negro carried the body into the basement, detectives point out that the stains are on the back of the shirt.

Handwriting experts who examined the notes found near the body and samples of writing by the negro Lee expressed their conviction that the watchman is the author of the incoherent missives.

Negro Held For Murder.

Winchester, Va., April 30.—Charles Fisher, a one-legged negro, is in jail charged with firing the shot which killed Clyde J. Carpenter, a life insurance agent, on the night of April 17, just after Carpenter had left the house of Minnie Evans, a mulatto, with whom he was said to have been infatuated. Several other negroes, who are held as accomplices, accuse Fisher of the murder.

London, April 29.—Lieutenant Roger Harrison, of the British army aviation corps, was killed flying at Farnborough early yesterday morning. He was attempting a steep descent from a height of 400 feet when the elevator of his biplane collapsed under the strain and his machine crashed to earth. Harrison was killed instantly.

At Corporation Court of the City of Alexandria, Virginia, continued and held at the Court House of said city on Tuesday, April 29th, 1913.

Present, Hon. Louis C. Barley, Judge.

Alma E. Powell, Vs. Chancery.
William T. Powell.

Upon the application of the complainant stating specifically the last known place of abode of the defendant, the Court on this 29th day of April, 1913, doth grant the following order of publication.

The object of this suit is to obtain for the complainant a divorce from the bond of matrimony from the defendant on the ground of desertion and abandonment for a period of more than three years before the bringing of this suit, the care and custody of the infant child of the marriage, and for general relief, and on affidavit having been filed that the defendant, William T. Powell, is not a resident of the said State of Virginia, it is ordered that he do appear here within fifteen days after due publication and do what is necessary to protect his interest in this suit.

And it is further ordered that a copy of said order of publication be published once a week for four successive weeks in the Alexandria Gazette, a newspaper published in the City of Alexandria, Virginia, that a copy be posted at the front door of the Court House of the said City on or before the next succeeding rule day after this order is entered and that a copy of said order of publication shall be sent by registered mail by the Clerk of this Court addressed to the said non-resident defendant, William T. Powell, at 739 Fairmont street, North West, Washington, D. C., his last known place of abode.
